EDUCATION

Vellore Institute of Technology-Andhra Pradesh

Bachelor of Technology Computer Science

8.65/10

2024 - Present

Sri Chaitanya Jr College

Board of Intermediate Education

9.75/10

2022 - 2024

TECHNICAL SKILLS

Languages: Java,Python,C,C++ ,MySQL,Data Structures & Algorithms

Web Development: HTML,CSS,JavaScript,Bootstrap

Frameworks & Libraries: React,Node,Express,Scikit-learn,numpy,Pandas

Development Tools: VS code,GitHub,Docker,Figma,n8n,PowerShell, MySQL, Google Colab

Deployment & Cloud: Vercel,Render,Railway,Netlify

Core Fundamentals: OOPS,OS,CN,DSA,DBMS

Soft Skills: Problem Solving,Communication,Critical Thinking,Adaptability,Time Management

PROJECTS

J.A.R.V.I.S

[GitHub](#)

Just A Rather Very Intelligent System

Tech Stack: Python, Whisper AI, Ollama, Llama 3.2, SQLite

- Developed an AI-powered desktop assistant capable of understanding and executing natural language voice commands.
- Integrated speech-to-text and text-to-speech pipelines to enable seamless voice interaction.
- Implemented system automation features including application launching, web navigation, and file management.
- Built a modular architecture supporting AI-powered task execution and future workflow automation capabilities.

AI Food Recipe Maker

[GitHub](#)

AI-Powered Recipe Generation Platform

Tech Stack: Python, Streamlit, Gemini API/OpenAI API, SQLite, HTML, CSS

- Developed an AI-powered recipe generation platform that creates personalized recipes based on available ingredients
- Integrated Large Language Models (LLMs) to generate cooking instructions, nutritional insights, and meal suggestions.
- Designed an interactive user interface enabling real-time ingredient input and recipe generation.
- Built a scalable architecture supporting future integrations such as meal planning and grocery list generation.

Social Media Platform

[GitHub](#)

Modern Social Networking Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Clerk, ImageKit, Inngest

- Developed a full-stack social media platform enabling users to create posts, interact with content, and build social connections.
- Implemented secure authentication and profile management using Clerk with role-based access control.
- Designed responsive user interfaces using React.js and developed scalable REST APIs with Node.js and Express.js.
- Built core social networking features including post creation, follow/unfollow functionality, friend requests, and user discovery.

EXPERIENCE

Software Development Intern (Self-Directed Projects)

Built and deployed 4+ full-stack applications using React.js, Node.js, Express.js and MongoDB. Designed scalable database schemas, REST APIs, authentication systems, and responsive user interfaces. Implemented Git-based version control, debugging, testing, and software engineering best practices.

CERTIFICATIONS

- SQL Certification – NxtWave CCBP Academy
- MongoDB Certified Associate Database Administrator

ACHIEVEMENTS

- Solved 300+ DSA problems across GeeksforGeeks and coding platforms.
- Built 4+ end-to-end projects using MERN Stack, Python, AI, and Database technologies.
